

Samsara - Update Access

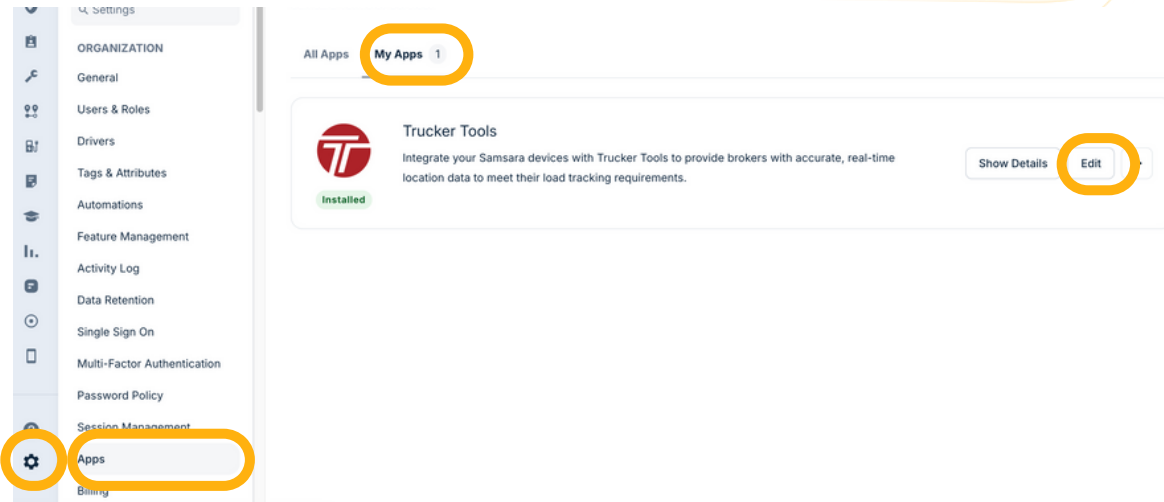

Connect your devices for automated tracking on brokers' loads.

1 Login to your Samsara admin account

Please ensure you login to your fleet account under your admin role credentials. You must have admin permissions to proceed.

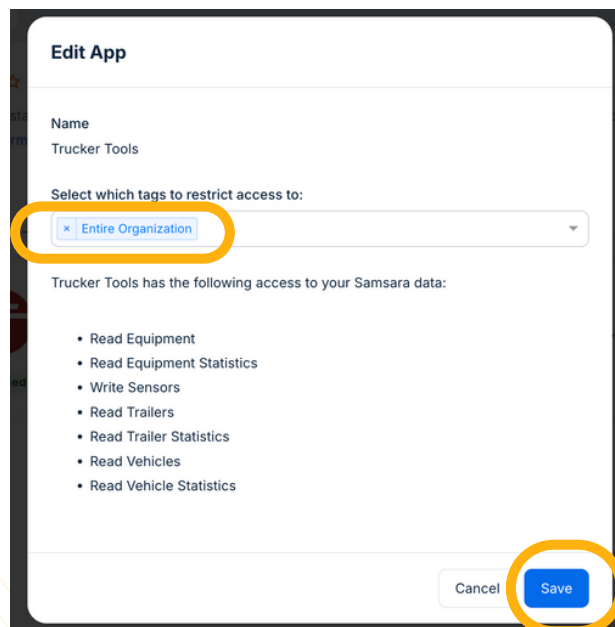

2 Access your enabled Apps list

- Click into your account settings
- Click **Apps**
- Click **My Apps**
- On Trucker Tools, click **Edit**

3 Update Permissions

- Ensure "Entire Organization" is selected as the tag access
- Click "**Save**"

4 Your integration is now updated!

Once you have successfully updated your access, your integration can provide automated and real-time location tracking for all your loads in Trucker Tools.
